Complete Classroom Package

30 STUDENT SETS / 750 CHAPTER BOOKS

\$15,779

Includes shipping and handling

A full classroom collection for approximately 30 students. Each student can have a complete 25-book series and both workbook halves, giving the teacher a consistent set of materials for reading, discussion, written responses and SEL reflection.

INCLUDED MATERIALS

- 30 complete sets of all 25 chapter books: 750 books total
- 30 half student workbooks for Books 1-12
- 30 half student workbooks for Books 13-25
- Teacher's Guide and Guide for Thematic Book Sets
- SEL Life Skills Classroom Toolkit and Bright Future Game

HOW THE MATERIALS WORK TOGETHER

The books provide shared stories for comprehension, vocabulary, character analysis and discussion. The two workbook halves give each student space for reading responses and related activities throughout the 25-book series.

The Teacher's Guide supports lesson planning; the Thematic Guide helps educators organize instruction around a selected SEL topic. The toolkit supplies additional classroom activities for reflection, friendship, conflict resolution, kindness and safety. The Bright Future Game adds guided practice in discussing choices and their possible consequences.

Suggested use: A classroom literacy block, teacher-led read-alouds, partner reading, whole-class discussion and follow-up writing. Educators can select stories and activities that fit their learners and instructional schedule.

The physical Bright Future Game supports 2-6 players and is recommended for grades 5 and up. Plan game use according to the students participating.
